Core Aeration Healthy Roots Equals a Very Healthy Lawn

Get your lawn off to the right start each year with the #1 lawn maintenance service that every lawn can benefit from core aeration. Unlike some lawn services that serve a single purpose, aeration supports the health of your lawn on multiple levels and is therefore the most cost-effective way to promote the health and vitality of your home's turf grass.

Reasons to Aerate

- Compaction is Relieved
- Thatch is Broken Up
- Free Top Dressing
- Drought Protection
- Increase Fertilizer Uptake
- Insect Resistance
- Weed Resistance
- New Turf Growth
- Water Savings

PLANTING
PAVER INSTALLATION

Top Dressing

This service adds a thin layer of compost to your lawn; improving the colour and density of your lawn. Adds valuable organic matter to soil base. Increased microbial activity improves soil fertility and root structure. Consult with a Grasshopper associate to properly assess your lawn and provide you with customized options.

Lawn Maintenance

Weekly maintance of lawn. Trimming of entire property. Blowing and clearing of any debris or grass clippings.

Fertilization Treatment

Premium quality, slow-release granular fertilizer feeds lawn for 4-6 weeks, or 6-8 weeks depending on the blend. Blended from naturally occurring ingredients including nitrogen, phosphorous and potassium. Nutrients produce strong roots and turf that resists weeds, disease and insects. People and pets may play on the lawn immediately following application. Phosphorous free blends also available. Call us today for more details on our high quality fertilization treatments.

Overseeding

This service introduces high quality grass seed cultivars to your lawn to help replenish bare or damaged areas. Watering daily to keep seeded areas moist is required for maximum results. Consult with a Grasshopper associate to properly assess your lawn and provide you with customized options. Maximum results can also be improved when Over-Seeding is combined with Nature's Touch Top Dressing Service.

Interlocking Paver installation

We are committed to providing you with a paver hardscape that is not only beautiful, but guaranteed to last. Our projects will meet your highest standards.

Grasshopper lawncare has been staking its reputation on family's lawns for over 15 years. We are a responsible lawncare company, providing a wide variety of lawncare services while offering the highest level of customer satisfaction. Grasshopper lawncare is a family owned and operated business, servicing the Scarborough Bluffs and the surrounding GTA. We currently service hundreds of homeowners throughout the GTA. We take the guesswork out of your lawncare. Our 4 visit program provides your lawn with a mechanical core aeration and light frequent applications of a slow release fertilizer. This minimizes surge growth and eliminates any potential for leaching or runoff.

Our program ensures that the right product is applied during the right time of the growing season to produce maximum results. Our programs are completely compliant with all municipal bylaws.
